REVISE CHARTER, SOLICITOR SAYS

Present Articles are Ambiguous and Unsatisfactory.

Tinkering Has Made Them Worse, and Friction Between Departments Results.

FAVORS A JOINT COMMISSION.

City Solicitor James Campbell, Jr., has not lost hope that the general council will accede to his recommendation that a commission of representatives from all the second class cities in the state be formed to revise or re-write the charter of second class cities to rescue them from the chaos of ambiguity and impotency which causes the city so much loss from friction in the administrative departments.

His plan is to have the general council appropriate an adequate sum of money to sustain a representative commission from Paducah on the proposed commission, who would be competent to fulfill the duties of such an undertaking. Each city of the second class could similarly appoint one or more representatives, to meet in Louisville or some other centrally located city, where the charter could be gone over, the ambiguous sections straightened out, the defects remedied and such other improvements as experience and study suggest could be made.

That the present charter is a poor instrument to use in the conduct of a city through the multiplicity of demands of modern municipal needs, is the vivid experience of every city solicitor, and concrete proof is had in the friction of the general council and the board of public works over the appointment of officers. Some lawyers believe the intention was to give the power to the board of works, though they do not believe it actually was done. City Solicitor Campbell can bring forth numerous instances where the city has suffered large financial loss from fighting suits brought on by the poor construction of the charter by the legislature and he says that decisions of the court of appeals have actually nullified many parts of the charter. Then the chaotic condition of the city ordinances adds to the difficulty of piloting the city through its legal affairs, though Judge Puryear will relieve this situation somewhat when he completes his task of classifying the city ordinances. Must Get to Work.

Mr. Campbell's plan is to recommend to the council again this idea, so that the commission may get to work and complete its duties in time to present the result of their efforts to the next legislature. His suggestion is disinterested because he would not accept any part in the work, nor is he afraid of the extra work the present condition puts on him; but the saving of many thousands of dollars to the city as well as acquisition of a new or revised charter that would be in step with the city's present size and needs, are the motives which actuate him in his recommendation.

Speaking on the idea and its advantages Mr. Campbell said:

"In the nature of our municipal government it is impossible for succeeding councils to exercise any perspective in passing ordinances for the city. Every council that comes in passes ordinances without knowing what has been done in the past, and the result has been to create a maze of cross purposes which manifestly increases the difficulties of the legal department. Many of the ordinances conflict with state statutes, they conflict with themselves, and the conflict with the charter. They are passed several every month and at present no system is in force, which keeps them classified in a way that would prevent confusion. No mind could remember all passed in one administration, much less to be up on the whole past history of the council. The only remedy is to get the charter revised by a commission from the second class cities showing clearly each department's status and up to date with the latest decisions of the court of appeals. The city has had suits and will continue to have them because of the tangled condition of city ordinances and the ambiguous charter. I do think it would not require over \$200 for the city to do its part toward a revision, and the investment would return interest in the way of frictionless operation."

WEATHER FORECAST.

RAIN.

Showers tonight and probably Friday, warmer tonight. Highest temperature yesterday, 59; lowest today, 41.

INSULAR REFORM.

Washington, April 18.—General Clarence F. Edwards, chief of the insular bureau, will recommend a radical change in the status of civil service employees in insular possessions of the United States. He strongly favors the system adopted by the British government.

PLEADS OWN CASE.

Boston, April 18.—Dr. John Sinclair is not guilty, after four trials. The verdict rendered today was largely due to the impassioned plea made by the prisoner yesterday in his own behalf, while acting as his own attorney. Sinclair was charged with causing the death of Annie Russell.

WAITERS' STRIKE.

Paris, April 18.—A slight outbreak in the waiters' strike occurred at the noon hour. Strikers attempted to interfere with some boulevard restaurants. It was necessary to call police to quiet the strikers, who became riotous.

FAMILY CHARGED.

Dayton, Ohio, April 18.—Mrs. Leah Gillman, Collins, Payne and Bessie Gillman waived examination this morning and were bound over to the grand jury on the charge of murdering Donna Gillman last November. Members of the family were arrested once before but the cases were ignored by the grand jury.

OFFICER DIES.

Frankfort, Ky., April 18.—Deputy Sheriff H. Treadway, of Owsley county, was asphyxiated by gas in a room in the Frankfort hotel last night. He came here yesterday with a prisoner.

STRIKERS KILL.

Chicago, April 18.—Because he refused to go on a strike, Edward Fago, a car cleaner employed by the Chicago & North-western, was struck on the head with a brick last night and then jumped on and kicked by three men. He died a short time later.

BELGIAN REPUBLIC.

Brussels, April 18.—The Belgian republic is being urged by the Workmen's party to succeed the present monarchy. King Leopold's opposition to the plans for the betterment of conditions of the working people of the nation is chiefly responsible for the agitation.

TWO PAIRS.

Gaeta, Italy, April 18.—King Edward and Queen Alexandra, of England, arrived today aboard the royal yacht Victoria and Albert for a visit with the Italian king and queen. All Europe regards the meeting of the two monarchs as of great political significance. It is possible their conference will have important bearing on the coming Hague peace conference.

DIE TOGETHER.

Staunton, Va., April 18.—Mabel Pendleton and Stuart Gay, of Clifton Forge, on route to Washington to be married, were intercepted here and sent back home. When they arrived at Clifton Forge, this morning, the couple while crossing a foot bridge over the river jumped to the water 40 feet below and drowned.

GRAIN MARKET.

Chicagoh, April 18.—Wheat, 79; corn, 40; oats, 40.

Lighted Lamp Used in Searching for Piece of Money Starts One Home Burning.

OCCUPANTS SUFFER LOSSES.

Stooping under the bed to find a half dollar, Mrs. Bettie Hagerdeu, of 1 Huntington Row, let the lighted lamp she was holding get too near the bedding. In an instant the bedding was afire and she had time only to gather her children and escape. An alarm brought fire company No. 2 to the scene but too late to save the house, which was destroyed. Thirteen dollars of a total of \$30 stored in the room was recovered after the conflagration. Friends are caring for the family until another house can be secured.

Residence Damaged.

Damage amounting to fully \$300 was done the residence of Messrs. Leslie and Clarence Greenlee, 918 Kentucky avenue, this morning at 2:30 o'clock. The fire started from the kitchen stove and burned the kitchen entirely and partly destroyed the roof. The damage is fully covered by insurance. The owners carry a policy for \$1,200.

Grocery Is Destroyed.

Fire entailing a loss of \$1,500, destroyed J. H. Rickman's grocery on Bridge street last night shortly before 12 o'clock. The blaze had gained such a headway before the fire companies arrived that it was impossible to save the building and stock. An adjoining residence caught fire but was saved. Rickman carried insurance nearly equal to the loss.

ARREST TRAINMEN AS REBELS.

Mexican Judge Causes Detention of Engineer and Fireman.

Nogales, Ariz., April 18.—On the arrival of train No. 1 from Guaymas this morning, Philip Clarke, the engineer, was arrested on the Mexican side on telegraphic instructions from Judge Ihuacain at Hermosillo. Clarke is charged with rebellion. Clarke's fireman, Martinez, also was arrested, but released later. American Consul Hildwood is investigating the case.

William Vaughan.

William Vaughan, 60 years old, a prominent farmer of the La Center section, died yesterday morning of pneumonia. The funeral will be held this afternoon. The burial will be in the New Hope cemetery. He was a well known farmer, generally popular in his neighborhood. He is survived by his wife and nine children.

Bankruptcy.

Hearing of the claims of creditors with liens on property of the E. Rehkopf Saddlery company, was postponed until Friday morning.

Baby and Sitting Hen Have Roud Locked In The Coop

After creating a sensation a few months ago by swallowing a needle, pin, and several steel balls from her rattle, the 20-month-old daughter of Mr. and Mrs. Charles Akers, of 735 Goebel avenue, capped the climax yesterday afternoon by a successful battle with a sitting hen. The escapee cost the mother three hours of anxiety, and caused the father to lose a day's work at the Illinois Central shops.

Mr. Akers, the well known "air expert" who repairs triple air valves, is a poultry raiser and takes a great pride in his chickens. He keeps them locked securely in a house especially built for them. A small hole for ingress and egress is cut in the bottom of the door, measuring 8x8 inches. It was this dark hole that attracted the child. After looking all over the neighborhood for her daughter Mrs. Akers was attracted by a series of cries from the hen house but the door was locked and although sounds of a struggle indicated that the child and a hen were having it out, there was no means of rescue and when the noise of combat ceased, the flap of wings was stifled and the childish voice subsided into a muffled breathing, the mother was almost beside herself while awaiting the arrival of her husband, for whom she had telephoned. She could not even see the child to ascertain what damage had been done. When Mr. Akers arrived and unlocked the door, the child with scratched face was peacefully in one corner, and the hen minus a few feathers was contentedly sitting on her eggs in another.

CHURCH FACTION BLOWS UP HOUSE

Hazleton, Pa., April 18.—Early this morning the parochial residence of the Rev. Father Yankols, pastor of St. Joseph's Catholic church, was blown up by dynamite. It is believed the outrage was committed for the purpose of killing the priest. No inmates of the house were seriously injured. There are two factions in the church, one of which is hostile to the priest.

Yeiser Park Suggested As Name For The New Down Town Breathing Spot

It is significant that nearly every person, who has mentioned a name for the proposed new park between Kentucky avenue and Broadway on Tent street, has suggested the name of Yeiser park. The appropriateness of this honor is appreciated when one considers the connection of Mayor D. A. Yeiser with the inception of Paducah's park system.

Mayor Yeiser has always been a sincere advocate of parks, and he has been especially favored of fate by circumstances in conditions, which made the accomplishment of his dreams possible. The elimination of the "town cow" as a factor in Paducah civic and domestic life turned the attention of the populace toward improvements during his term. Then an amendment to the second class city charter gave him the opportunity

to name a park commission, and with its advent came the certainty of a downtown park. The last general council purchased the Tenth street site and the present general council has carried out the original intent by permitting the board to improve the tract. Some day the name probably will be changed to Yeiser boulevard when it is extended to become a connecting link in Paducah's more ambitious park system.

NOT PRESIDENTS BUT MINISTERS

Set Forth to Conduct Negotiations for Peace on Behalf of Nicaragua and Salvador on Board U. S. Ship

ZELAYA GIVES UP HIS TRIP.

Washington, April 18.—Representatives of the governments of Nicaragua and Salvador are now believed to be in conference at Annapolis. Tiger Island, Honduras, or on board an American gunboat in Fonseca Bay, Honduras. The navy department's report of the movements of the vessels gives the gunboat Boston as having sailed yesterday from Corinto, Nicaragua, and the gunboat Chicago from Acapulco, Salvador, from Annapolis.

San Salvador, April 18.—

President Figueres has been ready to accept the invitation of President Zelaya, of Nicaragua, and attend the peace conference at Annapolis. But at the last moment President Zelaya, through the agency of Philip B. Brown, secretary of the American legation at Guatemala and Honduras, asked to be excused from personal attendance on account of sickness, and requested President Figueres to send his minister of foreign affairs to the conference. President Figueres declining to show his sincerity and love of peace, agreed to this proposal, and consequently Garcia Gonzales, the foreign minister of Salvador left here today.

LARGE AUDIENCE HEARS COL. BAIN

Col. George W. Bain, the noted temperance orator, was greeted by a large audience at the First Baptist church, where he spoke last night in the cause of temperance. He was introduced by Hon. E. W. Bagby, who said he had enjoyed the honor of introducing Col. Bain to a Paducah audience 30 years ago.

Col. Bain is an orator of most unusual gifts and his pleasing delivery and happy fashion of making his points held his audience spell bound throughout the evening. Tonight he lectures at the Broadway Methodist church.

23 CASUALTIES.

Lodz, April 18.—Fighting between Socialists and workingmen has been in continuous progress here for 48 hours. Twenty-three casualties are reported. The authorities have taken no action.

Bad Milk Makes Them Ill.

Louisville, April 18.—Five members of the household of Mr. Frank Rehle, of 720 Fifteenth street, were made violently ill last night by drinking milk said to have contained formaldehyde in large quantities. Their condition was critical for a time, and the use of emetics and the stomach pump was resorted to before they were pronounced out of danger.

LIST OF VICTIMS GROWING LARGER

Six Hundred, at Least, Die as Result of Earthquake That Prostrated Several Cities of Southern Mexico

REPORTS ARE BEING RECEIVED.

Mexico City, April 18.—Estimates based on the latest figures from towns in the earthquake district place the number of fatalities at 600. No definite figures were given of the injured, but there is little doubt that the number will exceed 700. Practically every city southwest of Mexico City to Colima is damaged.

STRIKE SITUATION

Remains Unchanged Among Local Carpenters.

Between the cup and the lip of the carpenters' demands on the contractors almost any change may be made before May 1, when the contracts must be signed again. The status of the demands now is settled in one respect—the carpenters cannot accept an increase in working hours. The International Union will not allow any change in this regard though the question of wages may be decided by the local union. Officers of the union think that they can secure enough new signers to their demands among the contractors now working among men.

Lumber Dealers to Meet.

Jackson, Tenn., April 18.—The Retail Lumber Dealers' association of West Tennessee and Kentucky, will hold its second annual convention in this city on Friday, April 26. The sessions will be in the Eagles' lodge room in the Stoval building.

Herman Hale Is Set Free.

Herman Hale, the youth who cut Clarence Trice, both colored, has been released from a three years sentence in the state reformatory by County Judge R. T. Lightfoot. Hale promised to do better.

BOULEVARD PLAN FOR JEFFERSON

Will be presented to Board of Aldermen Tonight

Park Commissioners to Have Charge of Strip of Trees and Grass on West.

EXTEND TO GREGORY HEIGHTS.

Plans for a park way and boulevard from Nineteenth street to Twenty-fifth street on Jefferson street are to be brought before the board of aldermen tonight, in a petition from property owners. It is said.

The Paducah Traction company has long intended some such scheme, and would have undertaken it this year, but for some contingency which delayed operations. It is this, which has caused the company to demur to the action of the board of public works in demanding an immediate reduction of the grade on the park line. Now, it is understood citizens, park commissioners and the traction company have agreed to a joint plan and if the general council concurs, the board of park commissioners will have charge of a boulevard to the city limits, contributed by the property owners and the traction company.

The idea in general is to have a grass plot and trees in the center, where the street car tracks are with drive ways and more grass plots on the sides, bordered by the concrete walks.

The plan will be further aided by the agreement of other property owners to boulevard Jefferson street from Twenty-fifth street to the turn toward Wallace park, where the Gregory Heights company will take up the work and carry it on out as far as The Pines.

Unless a surprise is sprung little of interest is expected from the board of aldermen tonight. The ordinance prohibiting the sale of toy pistols in the city should be about ready to come from the hands of the ordinance committee, which was instructed to prepare the measure, in accordance with Alderman Stewart's resolution.

MRS. KATE SWITZER

Succumbs to Her Ailments This Morning.

Mrs. Kate Switzer, 53 years old, one of the best known residents of the county, died this morning at 6 o'clock, after a brief illness at her home on the Mayfield road near Florence Station. She was a native of Iowa, but had lived here since 1879. She is survived by the following children; all of whom were not her bedside: Miss Linnie Switzer, Mrs. May Rigel, Mrs. Mary Bosworth and Mrs. Nellie Snelling, and Arthur, Julia, J. G. and W. K. Switzer.

Besides her children, a brother, John Santig, of Burlington, Ia., and a sister Mrs. Mary Vanter, of Lucerne, Mo., survive her.

The funeral will be held tomorrow afternoon at 3 o'clock at the residence, the Rev. G. W. Baaks officiating.

PROMINENT FARMER DEAD

Much needed repairs are being made to the wharf, but to get that business of thoroughfares in proper condition would require, as Street Inspector Elliott recommended to the board of public works, 200 loads or more. Nothing has been done to the gravel part of the wharf in a year or two and whenever the river rises, the gravel that is cut loose by the wagon wheels is washed away leaving ruts and holes. The wharf deserves better than that at the hands of the city, because of the revenue it yields. Boats of the size of the Lee packets pay \$5 wharf rent each trip. The Tennessee river packets pay \$4, and the regular boats like the Dick Fowler pay quarterly rent. In Evansville only \$1 a packet is charged, while in St. Louis no rent at all is paid by the boats. Repairs could be advantageously made to the cobble stone part of the wharf. Apportioning repairs to streets according to the amount of traffic that passes over them, the wharf would get the largest repair account of any street, but as it is out of the way of automobiles and buggy driving, and out of sight of citizens with esthetic ideas, a sufficiently strong protest cannot arise from the truck drivers, and the extensive repairs needed in other parts of the city with the new street construction, take all the available funds and leave the wharf high and dry as regards repairs—except in high water.

Lower than the present stage of 19.7 feet it is not necessary for the river to go as far as the convenience of the packets is concerned. The river fell 0.8 in the last 24 hours. April 18 last year the stage was 31.6. Business at the wharf is good but slightly off from the conditions three weeks ago.

The wharfboat officers and steamboat men are experiencing trouble with the negro women who come down to the wharf to meet their husbands and lovers whenever a boat arrives. The police had to be called in last night to clear out a gang of dissolute colored women.

The excursion steamer W. W. will be put into the river today from the ways. The schedule for the season has not been arranged for the W. W. but the J. The City of Saltville arrived unexpectedly last night from the Tennessee river at 1 o'clock and left this morning early for St. Louis. The City of Savannah is expected from St. Louis Friday or Saturday.

The Peters Lee left Memphis on time and should arrive here this afternoon late on the up trip to Cincinnati. The Georgia Lee will pass down Saturday.

The Scotia arrived from Riverton, Ala., last night with two barges of lumber.

The Harth returned from the Caseyville mines of the West Kentucky Coal company, last night, and has been released by that company. The Harth will do general towing around the city unless chartered out.

The Henry Harley came in unannounced from Nashville last night, and after coaling went on to Shawneetown after a trip of 400.

THEATRICAL NOTES

Blunkall-Atwood Company.

This morning's Cairo Bulletin says: A good sized audience greeted the Blunkall-Atwood company last night at the opera house to witness the performance of the sensational drama "Sapho." The piece on the whole was well presented. Miss Atwood appeared in the title role. The part is a heavy one and requires art and hard work to bring out the various points in the character which Miss Atwood accomplished in a painstaking manner.

Mr. Cecil Kirke was Jean Gaussin and looked and acted the young Frenchman of the novel to everyone's satisfaction.

Mr. Blunkall as Uncle Samsavie, Mr. Otto Thebus as Dechalette and Miss Kilduff as Irene, gave excellent support.

Tonight "The Munger," a comedy drama in four acts will be presented.

ALARMING STAGE.

Reached by the Destruction of Plant Beds in Clarksville Region.

Clarksville, Tenn., April 18.—The destruction of plant beds through the Clarksville tobacco district has reached an alarming stage, and it is feared that unless the depredations by the so-called "night riders" are stopped, there will be an unusually light crop. The plants will be scarce, and farmers will be afraid to set out a large crop for fear that it may be destroyed, when all of the year's work will be lost. Frank Brown, a prominent farmer of the Fredonia neighborhood, this county, had his plant beds raided this week, and today all of his plants are dead. The men guilty of the offense are said to have been tracked and discovered. Mr. Brown is not a member of the association. He usually raises about \$1,000 worth of tobacco, but his crop will be cut considerably this year as a result of the outrages. In some sections it is said reprisals may begin which will result in a still further reduction of the crop.

No, Alonzo, a man isn't necessarily simple because he leads a simple life.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are circulating in the blood, and as long as this vital fluid remains in this impure and contaminated state the place will never heal. It may scab over and appear to be getting well, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, sometimes for years, continually growing worse, and slowly sapping away the strength and vitality of the sufferer.

There are many ways by which the blood may become contaminated and poisoned. A long spell of fever, or other sickness, breeds disease germs in the system, the failure of nature's eliminative members to remove the waste and refuse matter of the body, the excessive use of minerals in certain diseases, all infect the blood with morbid matter and germs, which sooner or later manifest their presence by a sore or ulcer which refuses to heal.

A BAD SORE ON HIS FACE.

I was afflicted with a sore on my face of four years standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it awhile I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.

THOS. OWEN.

Persons with an inherited blood taint are very apt to be afflicted with sores and ulcers. Being born with an unhealthy blood supply, the different parts of the body are never fully nourished, and when middle life is reached or passed and the vigor and strength of the system begins to weaken and wane, the tissues in some weak point break down and a chronic sore or ulcer is formed, and kept open by the constant drainage of impure matter from the blood. How aggravating and stubborn an old sore can be is best known by those who have nursed and treated one for years, applying salves, washes, powders, etc., with no good results. The place remains and continues to grow worse by eating deeper into the surrounding flesh, festering, discharging, sometimes throbbing with pain, and gradually undermining the constitution by its unhealthy action on the system.

It is a great mistake to expect to cure these places with external applications. True this treatment assists in keeping the parts clean, and are beneficial in this way, but do not reach the real trouble which is in the blood. The practice of cutting out the diseased parts and even scraping the bone beneath, is often resorted to, but these severe measures seldom do any permanent good. The sore may be removed, and for a time heal over, but the same poison that produced it the first time is still in the blood, because **The Blood Cannot Be Cut Away, and The Sore Will Return.**

S.S.S.
PURELY VEGETABLE

The only treatment that can do any real good is a competent blood purifier—one that goes to the very bottom of the trouble and removes the cause, and for this purpose nothing has ever been found to equal S. S. S. It goes down into the circulation, drives out all poison and morbid matter, reduces the inflammation, and by sending pure, rich blood to the diseased parts, instead of feeding them with impurities, allows the sore to heal naturally and permanently. Not only does S. S. S. purify the blood of all poisons and germs, but builds it up from its weakened and impoverished state, making it strong and healthy and able to supply every part of the body with sufficient and proper nourishment to keep it in perfect health. If you have a sore that is slow in healing, do not depend upon external applications alone, nor experiment with unknown medicines, but begin the use of S. S. S., and by removing every vestige of the cause, cure the trouble permanently. Special book on Sores and Ulcers and any medical advice desired sent free to all who write.

CHRONIC CHANKS.

MR. J. R. SMOCK

We all have met people who are continually kicking. Life seems a terrible thing to them. They seldom smile. Something dreadful is going to happen, nothing is ever just right, and they worry and fret and complain from morning till night.

Their trouble seems to be just a bad disposition but this is seldom so. In most cases there is one of two things the matter with them, either their nerves or their digestion is responsible. Both come from the same thing—stomach trouble.

A man or woman whose nerves are tied in knots is bound to be mighty poor company. The same thing is true if what they eat don't digest properly. No wonder they grumble, I don't blame them.

I have seen Cooper's New Discovery change the whole disposition of people in a month's time simply by getting their stomachs in shape again. Even the expression on their faces was altogether different. The worried, tired, fretful look changed to a peaceful happy expression and the lines of care disappeared altogether.

Many people tell me about this in letters. They seem to think it a miracle. It isn't. It's just the stomach working again.

Here's a case of this kind: "I suffered with my stomach for thirteen years. Nothing I ate seemed to digest. I also had chronic constipation, and was tired, dull, irritable and despondent all the time. I found it difficult to attend to my duties as traction agent at this place."

"Six different doctors treated me and all gave different opinions."

"I began taking Cooper's New Discovery, and to my surprise it helped me from the first. I have gained ten pounds in three weeks and am feeling fine. My work now is a pleasure, where before it was drudgery." J. R. Smock, Chicago, Indiana.

different independent telephone companies were present at 10 o'clock yesterday morning when President M. B. Overly called the convention to order in the Red Room of the Seelbach. President Overly made a speech in the way of an annual report in which he showed that the growth of the independent telephone lines in the state had been phenomenal during the last year. From maps hanging on the wall he showed what had been attained in the construction of the independent telephone lines in the mountainous district of Kentucky.

Encouraging reports were made from the four districts in the state by the four vice presidents of the association, who are known as presidents in their respective districts. The vice presidents who made reports are as follows: First district, W. J. Thomas, of Shelbyville; Second district, M. S. Taylor, of Lexington; Third district, H. H. Bastin, of Lancaster; Fourth district, Frank G. Hoge, of Hopkinsville.

Manager Herbert Jeffery, of the local exchange, was present.

Death Ends Proceedings to Secure Guardian for Kansas Man.

Ottawa, Kan., April 18.—Colonel S. B. Bohrbach, one of the wealthiest citizens of this county, died today at Excelsior Springs, Mo. The death raises the question of what will become of his large estate, as proceedings are now pending in deeds whether or not Colonel Bohrbach has been of sound mind for the past few years. He left a will in which large bequests are given to Baker University, Baldwin, Kan., and to Bethany hospital and the First Methodist church of Ottawa, but after the execution of the will he decided practically all of his property to members of the family of his sister-in-law, Mrs. E. P. Hubbard.

The Difference.

Attorney-General Hadley of Missouri, condemned, in an address at Topeka before the State Bar Association, certain trust methods. "I am sure," he said, "that we all want to see laws enacted that will give a square deal to everybody—the same deal to the poor and friendless widow as to the great corporation. I am sure we all want to see wiped out that accusation of unfairness, of favoritism towards the money power, that is made against courts and the workings of the courts."

"We want, all over the world, as little as possible of that thing which is exemplified in the anecdote of the Syracuse widow."

"This lady lost every cent she possessed through the speculations of some dishonest bank officials. In discussing the matter with her, a minister said, soothingly: 'The thieves will be punished, maybe. They're committed for trial.' 'Yes,' said the widow, 'they're committed for trial. It is true; and my child and I are condemned to hard labor for life.'"

"It is an important remedy in disorders of the womb. In all catarrhal conditions, and general enfeeblement, it is useful."

Dr. Pierce's Favorite Prescription faithfully represents the above named ingredients and cures the diseases for which they are recommended.

To Which Shall Taft Hasten
On His Return

Conference Will Be Held on His Return From Caribbean Trip This Time.

FRIENDS DIVIDE ON SUBJECT.

Washington, D. C., April 18.—When Secretary Taft returns from his trip to the Caribbean sea he will find himself subjected to extraordinary pressure from two different directions, and it is more than likely the decision he may make as to his future movements may have a controlling influence upon his political prospects.

Two rival camps of Taft followers are being built up. One of the noisiest and most radical sections of the secretary's admirers insists that it is absolutely necessary for him to throw up all his plans for the summer and devote himself personally to the Ohio campaign. The other element among his friends is equally strenuous in insisting that the secretary of war must follow his original program, go to the Philippines and Alaska on official business, and trust to the people to see that a public servant is much better engaged in looking after his official business than he is in making the stump in his home state to push his personal political prospects.

Developing Acute Phase in Ohio.

The secretary of war is in Porto Rico, and, except for some fugitive cable dispatches, probably is wholly uninformed as to the political situation in the United States. The Ohio situation is rapidly developing into a political version of Frank Stockton's dilemma of "the lady or the tiger." If Taft stays out of Ohio, Foraker will have things all his own way so far as talking is concerned. If Taft goes into Ohio, Foraker will have a beautiful chance to hit him between the eyes for neglecting public interests and abandoning an officially planned trip to the Philippines to promote his own candidacy for the presidency.

People who know Secretary Taft have little if any doubt as to what his course would be if he were to decide the question for himself on its own merits and without "listening to the advice of his political associates. He surely would seek the path of official duty. That is the dominant characteristic of the man. He has been in official life practically all of his career, and he never has shirked his work, nor has he ever left his work undone to secure his own promotion. At the same time there are now strong influences at work to induce the secretary to go into Ohio and make a personal fight there to secure delegates at a special primary to be held some time in November if present plans are followed out.

Roosevelt Urges Fight.

Local Telephone Men Attend Meeting
of the State Association at
Louisville.

Louisville, April 18.—The most successful convention in the history of the Kentucky Independent Telephone association closed last night with a banquet at the Seelbach. Good cheer and confidences were exchanged over the banquet board by many of the leading lights of the independent telephone movement in the middle and southern states. Reports from the four districts into which Kentucky is divided, made by the vice presidents of the association showed that the independent telephone busi-

ness was growing rapidly in the state. M. B. Overly was re-elected president of the association by a unanimous vote. The officers elected follow:

President—M. B. Overly, of Louisville.

Secretary—W. G. Turpin, of Henderson.

Treasurer—J. W. Chambers, of Winchester.

Executive committee—R. T. Hickman, of Henderson; B. L. Pandleton, of Winchester; Dr. Edwin Matthews, of Mayfield; P. S. Poye, of Louisville.

Delegates to Convention of International Independent Telephone Association at Chicago in June—George S. Shanklin, of Lexington; H. P. McChord, of Hopkinsville.

Vice Presidents—First district, W. J. Thomas, of Shelbyville; Second district, M. S. Taylor, of Lexington; Third district, A. H. Bastin, of Lancaster; Fourth district, Frank G. Hoge, of Hopkinsville.

THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood.

Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating sores or ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medical dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing distress in stomach, constipated or laxative bowels, sour or bitter rising after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indigestion, or dyspepsia and its attendant derangements.

The best agents known to medical science for the cure of the above symptoms are present in Dr. Pierce's Favorite Prescription, one of the leading medicines of which is a European root, of Helonia, and the medical properties of which is most faithfully represented.

Of Golden Seal root another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions, and general enfeeblement, it is useful."

Dr. Pierce's Favorite Prescription faithfully represents the above named ingredients and cures the diseases for which they are recommended.

Chester A. Arthur. The late President Chester A. Arthur, although he was a man of warm friendship, had a high sense of personal dignity that would brook no undue familiarity. A life-long friend of Mr. Arthur, who had accompanied him on one of his hunting trips, was telling an acquaintance some of the incidents of the hunt. "I suppose you know him well enough now to call him by his first name," ventured the other. "On the contrary," was the rejoinder, "I know him well enough not to call him by his first name."

Daily Thought.

"Time, strength, wisdom will be given for every opportunity. If we put out the hand to take that opportunity while it is here."

PEACE TALK.

Not a soul was the words of a South Carolina delegate to the peace conference in reference to W. T. Stead, editor of the Review of Reviews: "Stead has been in the peace making business too long. He is blasé. He is pessimistic. He would belittle mere peace talk, until he has discouraged the good talks, which I came here to listen to." He is right. It is just talk, and Stead is the most anomalous figure in the assemblage. He is the pioneer "yellow journalist" of England, and denouncer of the church as an instrument of peace getting.

Few of the delegates can cite us to first-class credentials as representatives of the Prince of Peace. Andy Carnegie takes a couple of swings at the presidential plexus, because Roosevelt suggests something practical; a German delegate arises to defend the Kaiser's reputation for "peace and quietude," and incidentally arouses Andy's wrath again by saying that conscription is popular in Germany. Then a Scotchman considers his ruler's reputation for peacefulness worth fighting about, and altogether the war spirit is on top at the end of the session.

Fortunately, however the delegates have learned their peace speeches by heart, and these carefully compiled arguments and figures greatly outweighed their words of "sudden heat and passion," so the rest of us back here at home reap a benefit from the session, that, perhaps, the delegates themselves miss by reason of their feeling in the matter.

The South Carolinian was right. He went there to hear good speeches about peace. That is the way it is brought about. It is better for us to talk peace and think peace, than to talk war and think war; for the good book says, "As a man thinketh in his heart, so is he." And we might add, so are nations.

Mr. Sterling has disfranchised a voter for accepting a bribe. Such action presupposes that a second party offered the bribe. Now, if Mr. Sterling will disfranchise somebody for bribe-giving, we shall feel that something has been accomplished in the way of morality. The discouragement of bribe-giving is a quick way to election reform; but we fear it will be a slow process, destroying the usefulness of bribe-givers, by eliminating one by one those unfortunates susceptible to bribery. One who accepts a bribe is weak, either through discouragement or bad home training. One who gives the bribe is necessarily of a stronger type, dominating the mind of the other. It appears impossible to convict a voter of accepting a bribe, without disclosing from whom he received the bribe. One bribe giver may debauch fifty voters and it is the fellow, who gives the bribe, we would use for an example.

It should be no trouble for the board of public works to "munge a clean sweep and settle every matter before it at each meeting." If by that it means to "refer matters" that it means to "refer matters" properly belonging to those departments to those in charge. A board of public works is a useless incubator, which does nothing but "refer matters" and let it go at that; as confessedly it has done for twelve months in the matter of stinking water standing in the gutter of a paved street like Broadway just west of Third street. A councilmanic committee can "resolve" and "refer."

One year ago today the terrible catastrophe overtook "Frisco. Today the sound of the trip hammer is heard slowly putting up the walls that a moment served to throw down. Old mother Earth trembles and destroys the hill, but the human ants return to the place and soon forget their fright in the hurry of life.

Mechanical hens, like mechanical birds of passage, are governed by certain physical laws, and devoid of individualities that their owners may understand and control. Hence the airship and the incubator each possesses some of the traits of the fowl and some characteristics in common—both are good aliters.

Those two American cruisers that are hearing the presidents of Salvador and Nicaragua to Amapala should not prolong negotiations, lest a new casus belli, with new leaders, should arise before terms of peace are reached.

Also it might be remarked, that the board of public works did not present its attorney fee in the market master case to the general council, but it is understood the council would turn it down if the board should.

Being a peace-loving man, it is not remarkable that Secretary Taft prefers the Philippines to Ohio.

It looks as though the D. A. R. officers had been playing one of Tom Lawson's tips.

Still, if the school enumerators are being paid by the day, what's the difference.

Captain Wade Brown did not have to kill a man to prove his popularity.

BLOOD CLEANING TIME

To make a splendid Blood Medicine, which every one should take at this time of year, mix: Fluid Extract Dandelion one-half ounce, Compound Kargon, one ounce, Compound Syrup Sarsaparilla three ounces. Shake well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well known local druggist states that these are all harmless ingredients, which any pharmacy can supply at nominal cost.

This simple mixture, though easily prepared, is said to strengthen the kidneys, forcing them to filter and strain from the blood all impure waste matter and acids which cause Rheumatism, Nervousness, Skin Eruptions, Sores, Boils and Pimples and other effects of Unclean Blood.

Now is the time to rid the system of disease and build up the full blood count of 95 per cent. red corpuscles, which means perfect health. Mix this yourself.

St. Louis Millionaire Hurries From Europe to Take Place.

Cutting short his European trip, involving the study of ballooning in Paris, in order to reach St. Louis in time to qualify as city councilman, Mr. Lambert traversed 4,357 miles that he might claim the seat to which he was elected without solicitation while abroad.

"I like ballooning better than politics, and in a short time will return to Paris to complete my studies," said Mr. Lambert.

BEAUTIFUL HOME SITE FOR SALE.

One of the handsomest sites for a suburban home near Paducah has been placed in our hands for sale. This is one of the few hills that has not been taken by the well-to-do of the city, but there is not a site near Paducah that commands a more beautiful view and not one that can be bought at a price more reasonable. Situated about two miles from the post office and embracing thirty acres of good land, having a regular and gradual slope on three sides, it commands a most picturesque view of Paducah and the surrounding country for miles beyond the Illinois bank. A little effort can make this place one of the most attractive homes in McCracken county. We shall be pleased to show you this property at any time.

U. P. CONTROL

CAUSES SERIOUS BREACH IN STANDARD OIL.

William Rockefeller and H. H. Rogers Go to War Over E. H. Harriman's Powers.

New York, April 18.—E. H. Harriman is to be ousted from the absolute control of Union Pacific, according to apparently well informed reports in Wall street.

This action, it is declared, will be taken by an agreement among H. C. Frick, William Rockefeller and others of the Standard Oil group, who feel that Harriman has gone too far in making investments for the company. If H. H. Rogers is said to side with Harriman, and a serious breach of friendship undoubtedly has occurred in the headquarters of Standard Oil as a result.

Exactly how much fact there is in the report it is impossible to say. It is known there is a serious dispute and that important people in Wall street, who are aware of it are advising their friends to keep out of the stock market until it is settled. They say the dispute is of such a character that it cannot be settled at one conference.

ORDER OF SALE.

In the District Court of the United States for the Western District of Kentucky.

In the matter of Wm. D. Melton, bankrupt, in bankruptcy.

At a court of bankruptcy, held at the office of the undersigned referee, in the city of Paducah, Ky., on the 6th day of April, 1907, the following proceedings were had:

Felix G. Rudolph, trustee of the estate of the bankrupt, having filed herein his petition, asking for the sale of the real estate hereinafter described, and the same having come before me for hearing thereon, of which hearing ten days' notice was given by mail to the creditors of the bankrupt, now, after due hearing, no adverse interest being represented thereat, it is ordered that said trustee be authorized to sell that portion of the bankrupt's estate specified in said petition, described as follows, to-wit:

A tract of land, situated in McCracken county, Ky., lying on the waters of Newtons Creek, and also known as a tract of land that James B. Brooks purchased from E. C. Rudolph, beginning at a stump known as the southwest corner of the Alf. Hudson old track of land, with white oak pointers; thence with the line of said Hudson, E. 75 1/4, E. 140 poles to a hickory, with hickory pointers; thence S. 14 1/2, W. 100 poles and 25 links to a stake, black oak and post oak pointers; thence N. 75 1/4, poles; W. 139 poles and 5 links to a stake in west line, white oak and hickory pointers; thence N. 14, E. 100 poles and 23 links to the beginning, containing 88 acres of land, more or less, and is the same land conveyed from Bell S. Brooks to A. H. House on the 6th day of December, 1900, and recorded in deed book 64, page 444; and is the same land conveyed from A. H. House to W. D. Melton on the 26th day of April, 1905, deed to which is recorded in Deed Book 75, page 346, in the office of the County Court Clerk of McCracken County; and appraised in this proceeding at \$1,500.00.

Also the following tract of land, situated in Ballard County, Ky., to-wit: 21 acres of land in River Bottom, bounded as follows: North by Wm. Brown. East by Henry Little.

HEALTH AND HAPPINESS.

"Life consists not in living, but in enjoying health."

We could all enjoy health if we conformed to Nature's simple laws. Disease is merely a result of the non-observance of those laws, either by negligence, accident or ignorance. These reasons are, as a rule, of little consequence after disease becomes manifest and properly diagnosed. It is the nature of the treatment and the results obtained that concern you.

Nature is the over present factor in the cure of disease. The Osteopath appreciates this fact, and uses all means that are natural, recognizing and using diet, air, water, exercise and other hygienic measures as natural assistants to scientific manipulations to secure normality to any and all structure disturbances.

I should be pleased to refer you, at any time, to Paducah people you know well who can attest to what Osteopathy has done for them in cases of rheumatism, asthma, neuralgia, nervousness, stomach, liver, and bowel troubles, eczema, sick headaches, in gripple conditions, malaria, lumbago, disturbed blood conditions. If you are ill you owe it to yourself to investigate Osteopathy. Dr. G. B. PROAGE, 516 Broadway, Phone 1407.

The Workingman's Suit

If you are a workingman—if you measure your wealth by your daily toil, you are justified in being every bit as particular in the selection of your suit as the man who patronizes the tape-line system of the custom tailor.

Yes, even more so, for if you are disappointed in a suit you can't afford to give it away or hang it up.

You Want Good Serviceable Clothes

You want them cut and made to fit, cut in style and made to stay together. We give our workmen patrons just such clothes as these in our

meyer, South by John McGill, West by George Dusch; about 1 1/2 miles west of ogden, Ky., being the land deeded by O. D. Holt to John W. Gordon on June 7th, 1904, which deed is recorded in Deed Book 19, page 74, and being the same land sold by John W. Gordon to W. D. Melton, deed to which is recorded in the Clerk's office of the Ballard County Court, Ky., in Deed Book 17, page 253, and appraised in these proceedings at \$100.00.

Said trustee shall sell said land at public auction, to the highest bidder, at the county court house, at Paducah, Ky., on the 13th day of May, 1907, at 11 o'clock in the forenoon of said day. He shall sell the land, which is located in Ballard County, Ky., for cash, and the land located in McCracken County, Ky., on a credit of six months, the purchaser to give bond with good and approved security, payable to said trustee for the deferred payments, and a lien shall be retained in the deed of conveyance to secure the payment of the deferred payments. Leave is given the purchaser to pay the cash at any time before maturity of the bond, the interest for the unexpired time to be abated. Before selling said property, said trustee shall advertise the sale thereof by notices of the time and place of said sale, posted at four public places in the vicinity of the land in the county in which said land lies, and also at the county court house door of the county in which the land is situated, and once a week for at least four weeks prior to such sale in at least one newspaper printed, regularly issued, and having a general circulation in the county where the land proposed to be sold is situated. The land situated in Ballard county shall be advertised for sale in the Ballard Yeoman, and the land situated in McCracken county shall be advertised for sale in the Paducah Evening Sun.

The trustee shall keep an accurate account of the property sold, the price received therefor, and to whom sold, which account he shall file with the referee as soon as said sale is made.

The trustee shall sell said land free from all incumbrances thereon, and especially from the mortgage lien of J. H. Alcock, on the tract of land in McCracken County, Ky., and said lien or liens, shall attach to the proceeds of sale of said land, as the holder of such liens may be entitled.

The trustee shall keep an accurate account of the property sold, to whom sold, and the price received therefor, which account he shall file with referee as soon as the sale thereof is made.

Witness my hand this 6th day of April, 1907.

EMMET W. BAGBY,
 Referee in Bankruptcy.

NOTICE OF SALE OF LAND.
 To the creditors of said bankrupt, and others interested in the sale of the bankrupt's property:

This is to notify you that pursuant to the foregoing order of the referee in bankruptcy, I shall, at the county court house door, in Paducah, Ky., at 11 o'clock in the forenoon, on the

13th day of May, 1907, sell the land described in said order at public auction to the highest bidder. I shall sell the land situated in Ballard county for cash, and the land situated in McCracken County, Ky., on a credit of six months, the purchaser to give bond with good security to be approved by me, with leave to the

purchaser to pay the cash for the McCracken County land at any time before the maturity of the bond, and in that event the interest for the unexpired time of the deferred payments will be abated.

Witness my hand, this 6th day of April, 1907.

SAID TO HAVE 150 WIVES; ALMOST MOBBED BY WOMEN

Philadelphia, Pa., April 18.—A mob of angry women tried today to get at James Matthias Williams, alias Marshall, a man of 150 wives, and head of the "Mrs. Edith Ross Matrimonial society," when he and Mrs. Tonie Marshall, his acknowledged wife and accomplice, were taken before a magistrate for a hearing. The mob fought with the police to strike at Marshall and his wife and one of them got through the cordon and hit Mrs. Marshall a blow in the face that sent her to the ground.

At the hearing it developed that 15 out of 150 wives had been found, identified, and had related their stories to Captain of Detectives Donahy. For the sake of their reputations their names were kept secret. Miss Marjorie Friel, known as Mrs. Williams No. 39, gave testimony. She was the woman who caused Williams' arrest, and declared she was duped by him after answering one of his advertisements.

Mrs. Jennie Matthews, of Buffalo, N. Y., gave Williams a surprise. She said it cost her \$1,400 to know him. She said:

"He told me that he had property in New York and California. I loaned him \$1,000 before we were married, and one day he said he had to go down to New York to dispose of some of his realty. He said I might as well go along, so that we could be married, and I did so.

THEY DICTATE.

Stenographic Clerks Become Valuable to Government.

Washington, April 18.—The chief clerks of the nine executive departments in Washington have just completed, for the first time, an accurate census of the stenographic clerks employed in the various departments. The report of the civil service commission shows that during 1906 there were 2,653 persons examined for this service, of whom 1,870 were men and 783 women. Of these 708 men and 335 women passed, of whom 410 men and 67 women were appointed. The usual entrance salary was \$340 to \$900. The highest salary possible for a stenographer to attain is \$1,800. The secretary of the commission says that stenographic clerks in the government service usually become so useful that, instead of being employed in taking dictation, they are employed to dictate.

There is a dearth of the higher grade of stenographic employees. The total number so employed in the executive departments is 1,568, and 25 per cent. every year go out of this work into some better work.

PRESIDENT WILL STUDY HARRIMAN

If He Is Amenable to Law Case Will Proceed

Intends to Dispel Belief That Prosecution Is Personal in Its Nature.

EPITOME OF THE SITUATION

Washington, D. C., April 18. — President Roosevelt proposes to take into his own hands the determination as to whether an attempt shall be made to break up the Harriman railroad combination or not. It is a big undertaking for anybody, but the president has come to the conclusion that it is his duty to study the case from beginning to end.

He has been pined in a position of antagonism to Mr. Harriman, and on that account he is particularly desirous that no step should be taken by any department of the government in such a way as to leave the impression that it was the result of personal hostility on the part of the president himself. If Harriman in his extensive railroad combinations has run counter to the general principle laid down in the Northern Securities case, an attempt will be made by the United States government to smash his immense railroad machine.

On the other hand, if it appears that the combination is a legal one, no matter how dangerous it may be to public interests, the president will not institute prosecution merely because he considers Harriman a financial pirate.

Possibly the best epitome of the Harriman situation is contained in an assertive question by Commissioner Lane, following upon the statement of Mr. Harriman that he took up Union Pacific in 1898. In this question Commissioner Lane summarizes Harriman's operations as follows:

"From that time you have increased your holdings in railroads until your line extends out to Portland, and by water from there across the Pacific; takes in the line then from Ogden to San Francisco and from there across the Pacific to the Orient; and from San Francisco back down and south to New Orleans, and from New Orleans to New York by water;

you have certain control over the Illinois Central and certain control over the Chicago and Alton; you have approximately \$50,000,000 of stock in the Baltimore and Ohio; you have large holdings in New York Central; and all these holdings trace from the original taking over of the Union Pacific, and the issuance of \$100,000,000 of bonds; is that so?"

In response to this direct question Mr. Harriman said: "All these latter holdings trace to the proceeds of the sale of the Northern Pacific and Great Northern."

Government as Check.

It was at this time that Mr. Harriman developed his extraordinary ambition to combine the railroads of the country under a single management from ocean to ocean. He said: "Suppose we had a line from New York to San Francisco would it not be a good thing—not that we have any idea of doing it, but would it not be a good thing?"

Thereupon Commissioner Lane suggested "supposing that you got the Santa Fe," to which Mr. Harriman promptly replied:

"You would not let us get it."

Tobacco Chewing is Conducive to Ruminating Philosophy.

New York, April 18. —The value of chewing tobacco as a help to ruminative habits that lead to good citizenship is one of the things that Woodrow Wilson, president of Princeton University, touched upon in his lecture today in the Horace Mann auditorium at Columbia University, on "The Senate of the United States."

Dr. Wilson pointed out the fact that a western senator, as a rule, is more valuable than an eastern man, because he comes from the part of

the country that is productive of thought. In the east, according to Dr. Wilson, men have no opinions because they do not have time to think.

Leads to Ruminative Habits. "If you live in a place," said Dr. Wilson, "where you can sit around the stove in a country store and spit tobacco juice into a sawdust box, you are much more likely to have opinions than if you live in New York. Whatever you may think of the habit of chewing tobacco, I want to suggest that chewing sometimes leads to ruminative habits. If a man stops long enough between sentences it shows he is more likely to have opinions that have weight than if he does not. There is something in a sawdust box

"People who have their heads buried in a morning paper in the morning and in an evening paper in the afternoon, have no ideas except those which the newspapers give them. This is the kind of people that are found in the east, where people think about nothing else except what they see in newspapers and their business. In the west this is not true. The western senator has time to chew between sentences, and consequently is more likely to think of those things which are valuable to the nation."

Westerner Less Corrupt?

Dr. Wilson emphasized the fact that a western senator is more likely to be free from corruption than an easterner.

Dr. Wilson advocated the establishment of a national newspaper. Whether you read the New York, Philadelphia, or Chicago newspapers, or all three, you would not get a national opinion. For this reason the country still is provincial. The speaker thought a national medium of intelligence would rectify this evil.

SCHOOL BOY SAVED.

Stood Beneath Big Coal Scoop at C. Cinder Pit.

Snatched from the jaws of death by the proper form of describing the escape of a small boy this morning in the Illinois Central shop yards. School children are forbidden in the railroad yards, but this morning a youth strayed too near the clinder pit. Dick Tolbert, day watchman for the Illinois Central, saw the boy. The boy stood in the way of the coal shovel, and snatched him away just as the shovel grazed his head.

Help of the Bull.

An Oakland farmer one day last year found a score of men putting up telegraph poles all over his best field. He ordered the men away, but they wouldn't go. They showed him a paper that gave them authority to put up poles wherever they wished. The old man looked at the paper, saw it was lawful, walked away in silence. He went to the barn and turned a savage red bull into the field. The bull made for the men, the men fled at top speed, and the farmer shouted after them: "Show him your paper! Show him your paper!"

There is no grief quite so hopeless as that which follows the death of a pet dog.

PLATFORM ADOPTED.

By the National Arbitration and Peace Congress.

New York, April 18.—The National Arbitration and Peace Congress today adopted its platform of resolutions, recommending among other things that the Hague conference shall hereafter be a permanent institution; that the Hague court shall be open to all the nations of the world; that a general treaty of arbitration for ratification by all the nations, shall be drafted by the coming conference providing for the reference to the Hague court of international disputes which cannot be adjusted by diplomacy; that the United States government urge on the conference action looking to the limitation of armament; that the conference attend to private property at sea, immunity from capture of war.

BROTHER FOUND.

W. H. Jackson's Whereabouts Learned After 40 Years.

Benton, Ky., April 18.—J. A. Jackson, living in Graves county, has at last heard from his long lost brother W. H. Jackson, who left Benton 40 years ago, when he was quite a young man and went west. He has never been heard of until since the first of January. He is a carpenter and lives at Van Buren, Ark., and is married and has eight boys and one girl. His identity was discovered through a man who traveled for one of the Mayfield Woolen Mills who accidentally learned his name and informed his brother in this county. He never gave any excuse for remaining silent so long, but now since he is an old man he will visit his brother in this county the last of May; it is now his intention to visit the big singing at Benton on the fourth Sunday in May, where they can probably meet many of their old friends.

PETTIGREW NEVER KIDNAPED.

Former Senator Says Illinois Woman Is Deceived.

Sioux Falls, S. D., April 18.—In an interview today former United States Senator R. F. Pettigrew of South Dakota, declared Mrs. Nellie Brown, of Aurora, Ill., who claims him as her son, is insane and that he never was kidnaped when a boy. Senator Pettigrew is at home here and denounced the woman as a fraud. He says he never heard of her and that at no time in his recollection was he ever spirited away from home.

His mother, he declares, was Mrs. Andrew Pettigrew, her maiden name being Miss Sautelle of Ludlow, Vt. She died at her son's home in Sioux Falls, says the senator, in 1873, and is buried beside her husband, Pettigrew's father, in Evansville, Wis.

I. C. SUITS DISMISSED.

Supreme Court of Illinois Had No Jurisdiction.

Springfield, Ill., April 18.—The supreme court today dismissed the suit of the state of Illinois against the Illinois Central Railway company for an accounting and recovery of the state's alleged share of gross receipts of the railroad. In dismissing the suit the court gave leave to the attorney-general to withdraw the suit and file either in the circuit or superior court.

Pettigrew to Succeed Taggart.

Washington, D. C., April 18.—In an interview today, Senator Fred T. Dubois, of Idaho, proposes ex-Senator Pettigrew for Democratic national chairman to succeed Thomas Taggart.

FORCE LOW FARES; MUST WALK

Clevelanders Will Lose Street Car Lines That Don't Pay.

Cleveland, O., April 18.—As the result of the long standing street railway war in this city a large per cent of the population may have to walk or seek other means of transportation soon, as the Cleveland Electric today sent a statement to the council that within eight days the tracks on Central and Quincy avenues would be torn up, as the company could not make money at a 3 cent fare. Mayor Johnson is pined in a

tight hole, as it will be up to him to provide transportation for the thousands who live along these five miles of track.
